**Attachments:** 20131223 Active Azoxystrobin registrations.txt  
Guys,

Here is the lists of active and pending registrations for Azoxystorbin.

Looks like NuFarm could be first, Cheminove second, WW USA third, followed by Albaugh.

Not sure who Irvita is.

I think we need to start getting our partners lined up early in 2014.

Let me know if you have questions,

Brian,

Per your request I've attached an NPIRS search listing the active azoxystrobin registrations. I've also attached a Word document listing the pending applications for companies who have submitted registration applications since 2011 for azoxystrobin.

Regards,
